

IPM  
LANDSCAPING

[www.ipmfacilities.co.uk](http://www.ipmfacilities.co.uk)

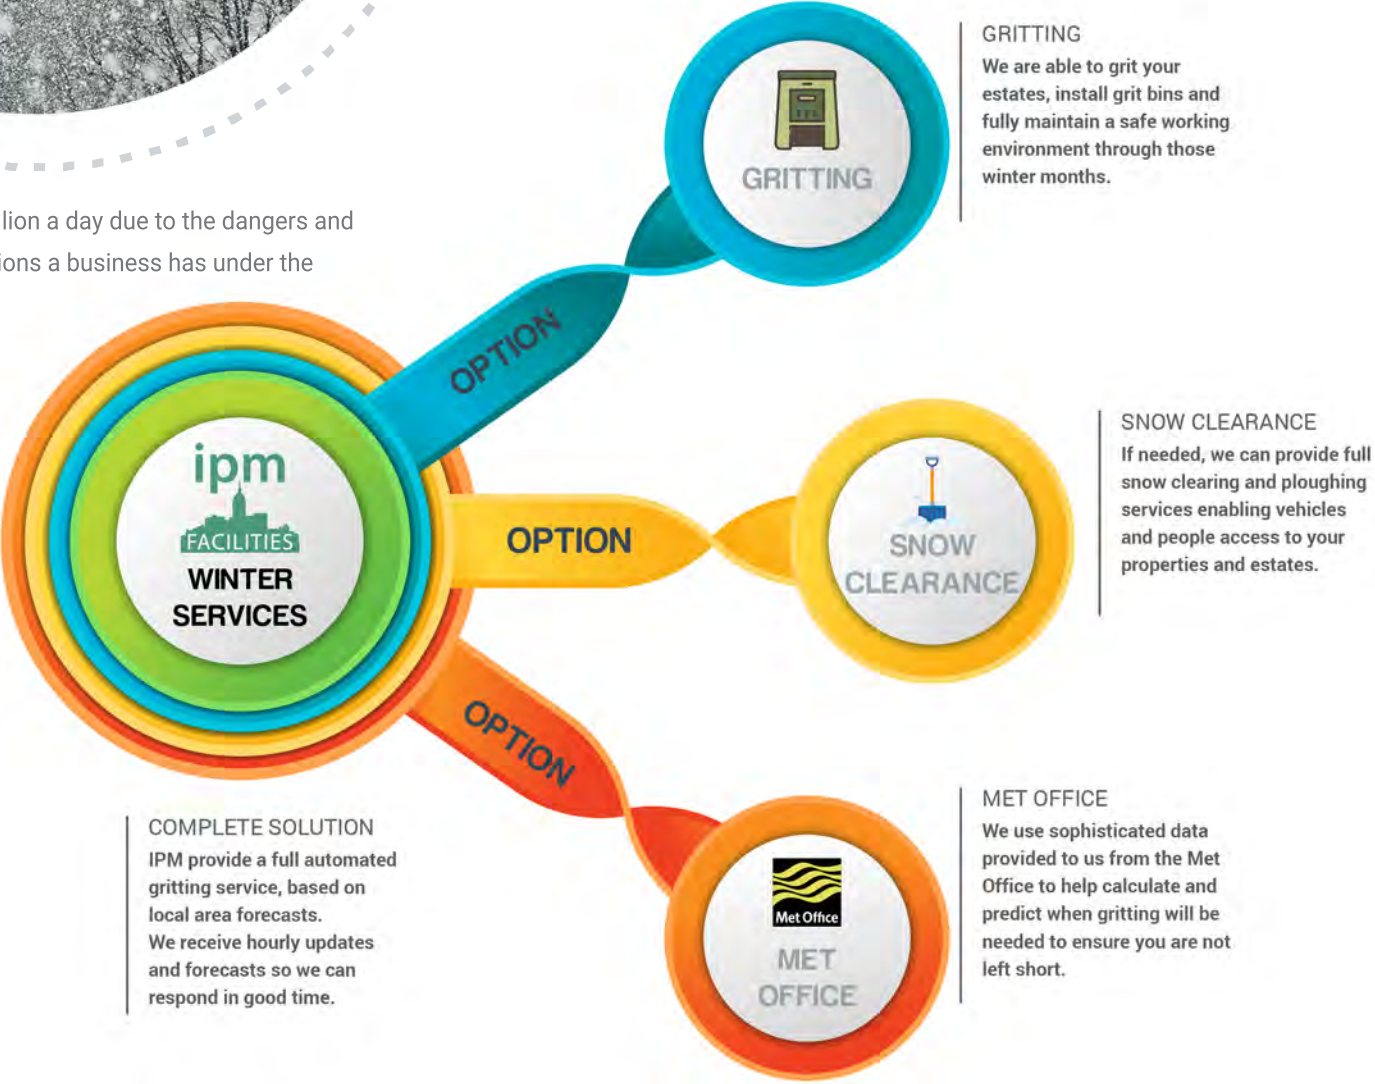

Every year, snow and ice cost the UK economy up to £500 million a day due to the dangers and inaccessibility which it causes. Combine this with the obligations a business has under the Health & Safety at Work Act 1974, where employers have to ensure that their employees and anyone else who could be affected by their work are kept safe from harm, means that proper winter maintenance is a must.

We offer the complete suite of winter services for your estates and properties from overnight gritting to snow ploughing. We offer a 24/7 Rapid Response service enabling you to react when the weather turns unexpectedly, and we utilise the most up-to-date data which is feed to us from the Met Office which we use to model and predict when your grounds will require the relevant servicing.

**We offer our clients a full range of cold weather and snow solutions to ensure your premises are safe at all times, no matter the weather.**

**Let IPM proactively manage your winter gritting needs**

📍 Unit 15, Highview Business Centre  
High Street, Bordon  
Hampshire, GU35 0AX
